The brands that put food safety in your hands

REMCO

Solid hygiene & performance

Seamless injection molded tools from Remco deliver the ultimate in hygienic material handling. One-piece construction eliminates areas for bacteria to hide and multiply, and results in a durable tool that performs beautifully even in the most rigorous applications.

The best of both hygiene & efficiency

Hygiene essential environments demand efficient and easy-to-use tools that maintain or advance hygienic standards. Vikan's products are designed to improve the quality and reduce the cost of cleaning, while motivating hygienic behavior.

Global Scope. Local Support.

Together, Remco and Vikan offer an array of FDA-compliant products for hygienic cleaning and material handling that is unparalleled, plus extensive industry expertise to help your customers mitigate cross-contamination and comply with food safety regulations. As your partners in food safety, no team is more devoted to helping you and your customers achieve the highest quality and safety standards for your products.

Color-coding. Minimizing risks and improving food safety.

Minimizing the risk of cross-contamination while maintaining a safe, clean processing facility is imperative for meeting today's food safety guidelines. Color-coding is a practice that is quickly gaining momentum throughout the industry to help food processors achieve high quality food safety standards.

As a trusted supplier to leading food processors, Remco can work with you to develop a color-coding system that's customized for your facilities and particular food products. You'll discover how color-coding can be effectively applied to divide and identify different zones or processing tasks, as well as help your workers visually confirm proper steps and procedures throughout every step of the process. Color-coding can be helpful in

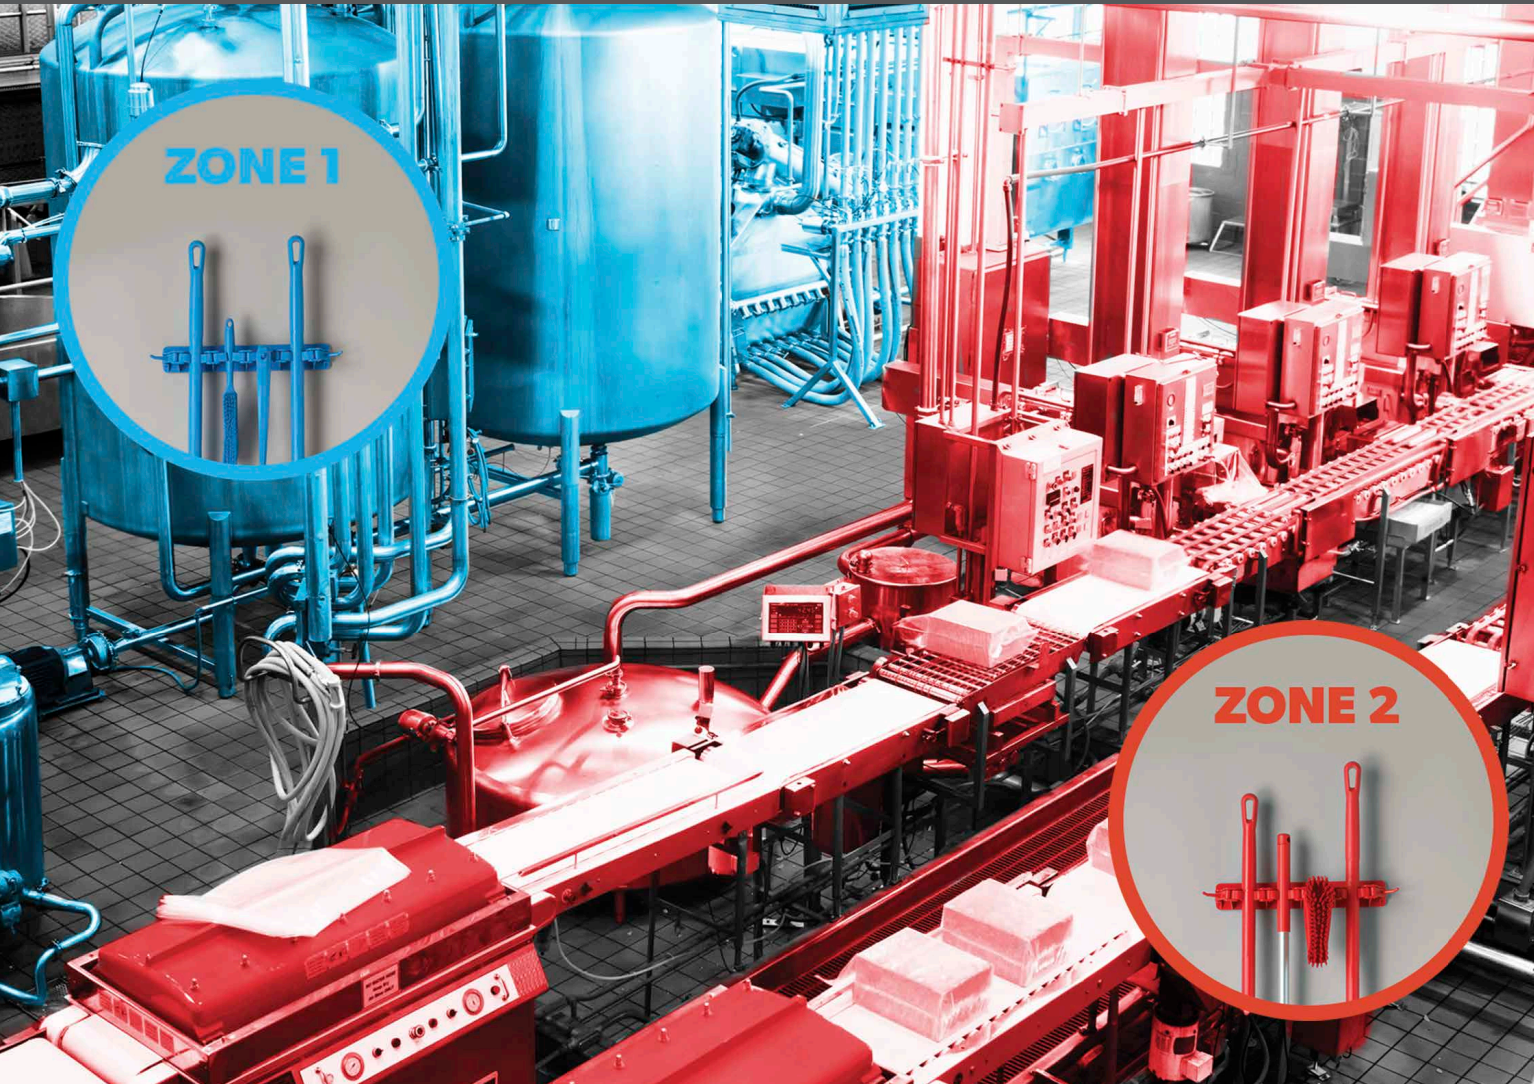

maintaining HACCP compliance, as well as prevent quality lapses before they happen. By design, many Remco Products and Vikan tools further contribute to color-coding efforts with products that are total color from block to bristles.

To assure a proper implementation of color-coding throughout your facilities, avoid complicated color assignments and keep your system simple. Pick logical colors and be sure to reinforce your color assignments with proper signage and storage areas. Remco welcomes the opportunity to work with your quality team to assure your color-coding system is a complete success.

Get the Color-Coding kit at remcoproducts.com/kit

Vikan's Hygienic Zone Planner Application allows Remco to provide support for food facilities by building custom color-coding programs. Call Remco at 317.876.9856 to discuss a site survey.

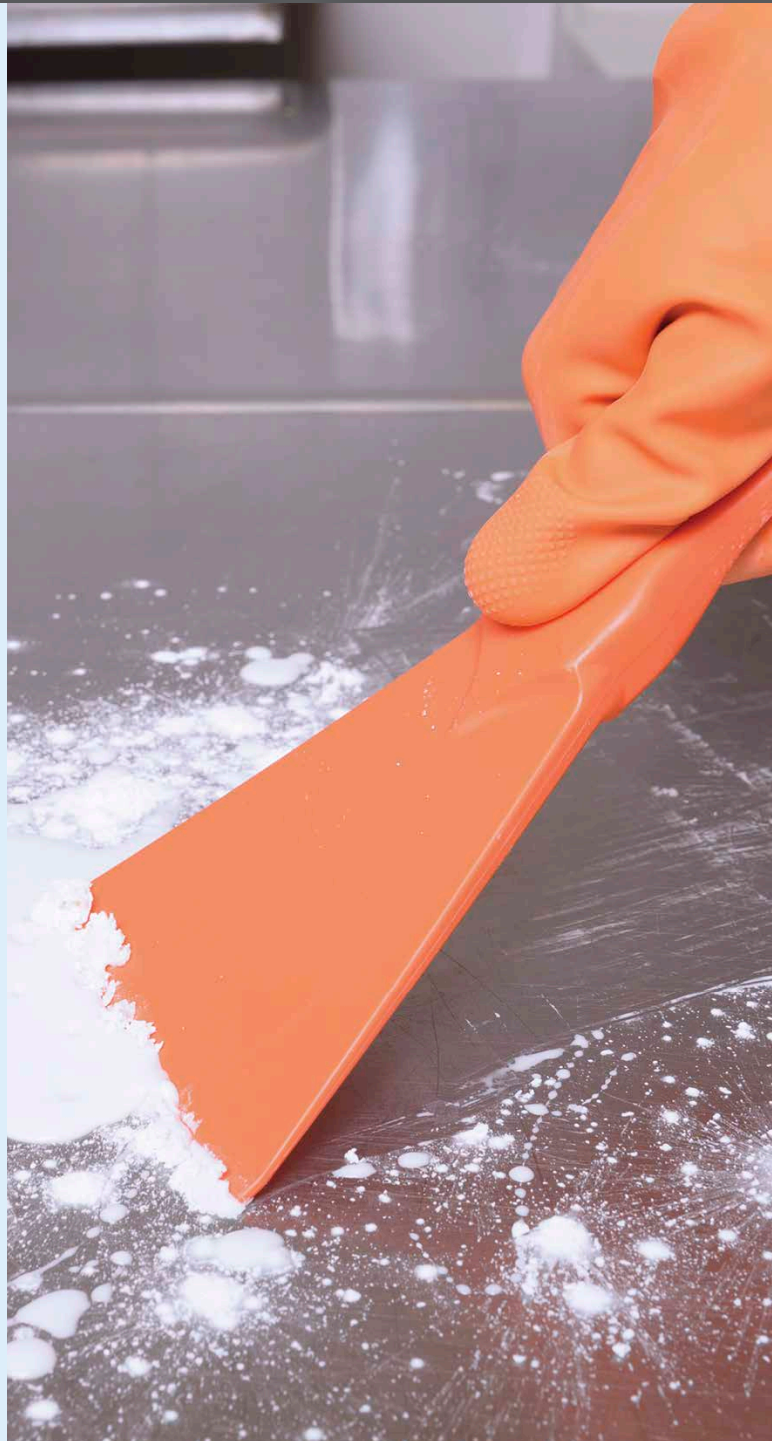

MATERIAL HANDLING TOOLS

In food processing environments, material handling tools must be purpose-built for the task. Because of their nature, these tools come into direct contact with food product. The material handling tools in your facility should improve your food safety efforts—not create a potential risk of contamination.

Material handling tools from Remco and Vikan are designed and produced from materials with the careful consideration to comply with regulatory standards. Any tool that contacts food must be backed by the appropriate documentation to support a written food safety plan, and we deliver on that promise.

But why stop at satisfying the requirements? Our superior lines are ergonomically built to eliminate excessive stress and strain on the user, improving the productivity of your workforce and ultimately your overall operation.

Shovels, Fork and Rake

Injection-molded polypropylene scoop shovels and the fork and rake are ideal for safe material handling in food production environments. These tools are a cost-effective alternative to stainless steel and are ergonomically designed to reduce stress on the user's back.

Features

- Injection molded polypropylene construction
- Ergonomic and lightweight design
- Chemical and corrosion resistant
- Autoclavable at temperatures up to 250° F/121° C
- Intermittent use may increase temperature range
- Slot size of sieve shovel .5" x 3"

Applications

- Meat, dairy, seafood, and poultry
- Confectionery
- Commercial fishing
- Ready-To-Eat processing
- Fruit and vegetable
- Chemical and industrial applications

Colors

When ordering, add the color digit to the base part number to denote color.

Remco Large One-Piece Shovel
6982

Material	Dimensions	FDA Compliant
Polypropylene	14" x 17" x 42"	Yes

Remco Small One-Piece Shovel
6981

Material	Dimensions	FDA Compliant
Polypropylene	11" x 14" x 38"	Yes

Remco Double Grip Wide Shovel
6984

Material	Dimensions	FDA Compliant
Polypropylene	14" x 18" x 48"	Yes

Vikan Wide Ergonomic Shovel
5601

Material	Dimensions	FDA Compliant
Polypropylene	13.5" x 12.5" x 51"	Yes

Vikan Sieve Shovel
5604

Material	Dimensions	FDA Compliant
Polypropylene	13.5" x 12.5" x 45"	Yes

Vikan Ergonomic Shovel
5611

Material	Dimensions	FDA Compliant
Polypropylene	10.25" x 11" x 50"	Yes

Vikan Extended Ergonomic Shovel
5612

Material	Dimensions	FDA Compliant
Polypropylene	10.25" x 11" x 64"	Yes

Vikan Hygienic Fork
56905

White

Material	Dimensions	FDA Compliant
Polypropylene	10.5" x 10.5" x 49"	Yes

Vikan Hygienic Rake
56915

White

Material	Dimensions	FDA Compliant
Polypropylene	7.5" x 8"	Yes

Scoops

Rugged scoops make quick work of moving all kinds of bulk materials and come in a variety of capacities.

Using color-coded scoops is particularly useful in preventing cross-contamination between allergens, supporting HACCP and regulatory food safety efforts.

Features

- One-piece injection molded polypropylene construction
- Autoclavable at temperatures up to 250° F/121° C
- No seams or cracks for bacterial growth (except 6552)
- Will not rust or corrode
- Chemical resistant
- Non-sparking
- Sturdy/durable

Applications

- Meat, dairy, seafood, and poultry
- Winery and Brewery
- Fruit and vegetable
- General food handling
- Commercial fishing
- Material handling
- Agriculture

Colors

When ordering, add the color digit to the base part number to denote color.

Vikan 64 oz. Dipping Bowl Scoop
5680

Material	Dimensions	FDA Compliant
Polypropylene	7.5" x 4.75"	Yes

Vikan 32 oz. Dipping Bowl Scoop
5685

Material	Dimensions	FDA Compliant
Polypropylene	7.25" x 3.25"	Yes

Remco 16 oz. Hand Scoop
6300

Material	Dimensions	FDA Compliant
Polypropylene	10.25" x 3.5" x 2.25"	Yes

Remco 32 oz. Hand Scoop
6400

Material	Dimensions	FDA Compliant
Polypropylene	11.5" x 5" x 2.75"	Yes

Remco 82 oz. Hand Scoop
6500

Material	Dimensions	FDA Compliant
Polypropylene	15" x 6.5" x 3.5"	Yes

Remco 128 oz. Mega Scoop
6550

Material	Dimensions	FDA Compliant
Polypropylene	11" x 9" x 7"	Yes

Remco 128 oz. Mega Dipper Scoop
6552

Material	Dimensions	FDA Compliant
Polypropylene	11" x 9" x 7"	No

Scrapers

Scraping tools from Remco offer solutions for a variety of bench top, food prep and floor applications. These tools are ideal when you need a hygienic option for effectively moving materials, and are rigid enough to perform without bending or breakage.

Features

- Autoclavable at temperatures up to 250° F/121° C
- No seams or cracks for bacterial growth
- Will not rust or corrode, chemical resistant
- Hi-temp scraper—working temps up to 465° F/240° C
- Effective at removing clumps of dry ingredients that have become set due to humidity or moisture

Applications

- Meat, seafood, and poultry
- Dairy
- Winery and Brewery
- Fruit and vegetable
- Confectionery
- Material handling
- Agriculture

Colors

When ordering, add the color digit to the base part number to denote color.

Remco Food Hoe Scraper 2900

Material	Dimensions	FDA Compliant
Nylon	11" x 8"	Yes

Vikan Stainless Steel Floor Scraper 2910

Material	Dimensions	FDA Compliant
Polypropylene/ Stainless Steel	10.25" x 7"	Yes

Remco Beveled Edge Floor Scraper 2911

Material	Dimensions	FDA Compliant
Nylon	10.25" x 6.75"	Yes

Remco Short Paddle With Holes 6774

Material	Dimensions	FDA Compliant
Polypropylene	6" x 13" x 40"	Yes

Remco Short Paddle Without Holes 6775

Material	Dimensions	FDA Compliant
Polypropylene	6" x 13" x 40"	Yes

Remco Long Paddle With Holes 6776

Material	Dimensions	FDA Compliant
Polypropylene	6" x 13" x 52"	Yes

Remco Long Paddle Without Holes 6777

Material	Dimensions	FDA Compliant
Polypropylene	6" x 13" x 52"	Yes

Remco Mini Bench Scraper 6959

Material	Dimensions	FDA Compliant
Polypropylene	5.5" x 3.5"	Yes

Remco Bench Scraper 6960

Material	Dimensions	FDA Compliant
Polypropylene	8.5" x 5"	Yes

Remco Small Hand Scraper 6961

Material	Dimensions	FDA Compliant
Polypropylene	3" x 8"	Yes

Remco Large Hand Scraper
6962

Material	Dimensions	FDA Compliant
Polypropylene	4.4" x 9.7"	Yes

Remco High Temp Large Hand Scraper
6963

Hi Temp Blue

Material	Dimensions	Max Temp.	FDA Compliant
Polypropylene	4.4" x 9.7"	490°F	Yes

Vikan Rigid Paddle Scraper
7011

Material	Dimensions	FDA Compliant
Nylon	4.5" x 6"	Yes

Vikan Flexible Paddle Scraper
7013

Material	Dimensions	FDA Compliant
Polyethylene	4.5" x 6"	Yes

Wall Brackets

Protect your tools and keep your area neat with color-coded wall brackets from Vikan®. Hanging your tools properly prolongs the life of your equipment. The brackets are extendable when mounted adjacently and can accommodate any product.

Features

- Bracket supports product away from wall for:
 - sanitary drying
 - hygienic storage
- Easy to increase length for your storage needs
- Weight capacity: 22 lbs.

Colors

When ordering, add the color digit to the base part number to denote color.

Vikan Long Rubber Grip Wall Bracket 1018

Material	Dimensions	FDA Compliant
Polypropylene/Rubber	3.15" x 15.5" x 2.35"	Yes

Vikan Short Rubber Grip Wall Bracket 1017

Material	Dimensions	FDA Compliant
Polypropylene/Rubber	3.15" x 6.15" x 2.35"	Yes

Vikan Replacement Hooks 1016

Material	Dimensions	FDA Compliant
Polypropylene	3" x 2.25"	Yes

Vikan Replacement Rubber Clips 1019

Material	Dimensions	FDA Compliant
Rubber	3.125" x 1.125"	Yes

Vikan Simple Wall Bracket 0615

Material	Dimensions	FDA Compliant
Polyamide/PVC	9.5" x 2.5"	No

Pails & Dustpans

Pails from Vikan® are ideal whether you're moving, measuring or mixing bulk materials, and color-coded to assist in the prevention of cross-contamination between allergens. The dustpan is hygienic and ideal for use with food product or as part of the facility's clean-up efforts.

Pail Features

- Autoclavable
- Specially designed pouring spout
- Stainless steel bail
- Chemical and corrosion resistant
- Measured graduation marks
- Working temperature range 5° F/-15° C to 250° F/121° C

Dustpan Features

- Autoclavable at temperatures up to 250° F/121° C
- One-piece, injection molded polypropylene construction
- Raised handle design with thumb grip
- Non-sparking
- Ideal for quick clean-up of tabletop areas and conveyor belts

Applications

- Meat, dairy, seafood, and poultry
- Milling and Bakery
- Fruit and vegetable
- Confectionery
- Pharmaceutical
- Winery and Brewery
- Chemical and industrial applications

Vikan Wall Bracket for Pails 16200

Compatible with 5686 and 5688 pails

Material	Dimensions	FDA Compliant
Stainless Steel	14.65" x 2.56" x 1.46"	Yes

Vikan Hygienic 3 gal. Pail 5686

Material	Dimensions	FDA Compliant
Polypropylene/Stainless Steel	12" x 12" x 12"	Yes

Vikan Hygienic 3 gal. Pail Lid 5687

Material	Dimensions	FDA Compliant
Polypropylene	14" x 12" x 1.5"	Yes

Vikan Hygienic 1.5 gal. Pail 5688

New Item!

Material	Dimensions	FDA Compliant
Polypropylene/Stainless Steel	10" x 10" x 10.5"	Yes

Vikan Hygienic 1.5 gal. Pail Lid 5689

New Item!

Material	Dimensions	FDA Compliant
Polypropylene	11.5" x 10" x .75"	Yes

Vikan Hygienic Dustpan 5660

Material	Dimensions	FDA Compliant
Polypropylene	12.5" x 11.5" x 2"	Yes

Remco Utility Dustpan 6350

Material	Dimensions	FDA Compliant
Polypropylene	12" x 12" x 2"	No

Colors

When ordering, add the color digit to the base part number to denote color.

Metal Detectable

These color-coded tools provide the ultimate step in quality assurance and safety for the food processing industry. Produced with a specially formulated FDA-compliant polypropylene resin, our tools can be easily identified by standard metal detection equipment. They are a great alternative to stainless steel.

Features

- Autoclavable at temperatures up to 250° F/121° C
- One-piece injection molded
- Heavy-duty and resilient
- Corrosion resistant

Applications

- Meat, dairy, seafood, and poultry
- Milling and Bakery
- Ready-To-Eat Processing
- General food handling
- Material handling
- Chemical and industrial applications

Colors

When ordering, add the color digit to the base part number to denote color.

Remco Metal Detectable 32 oz. Hand Scoop
6400MD

Material	Dimensions	FDA Compliant
Polypropylene/Semi-ferrous additive	11.5" x 5" x 2.75"	Yes

Remco Metal Detectable 82 oz. Hand Scoop
6500MD

Material	Dimensions	FDA Compliant
Polypropylene/Semi-ferrous additive	15" x 6.5" x 3.5"	Yes

Remco Metal Detectable Long Paddle Without Holes
6777MD

Material/ Block Material	Dimensions	FDA Compliant
Polypropylene/Semi-ferrous additive	6" x 13" x 52"	Yes

Remco Metal Detectable Mini Bench Scraper
6959MD

Material	Dimensions	FDA Compliant
Polypropylene/Semi-ferrous additive	5.5" x 3.5"	Yes

Remco Metal Detectable Bench Scraper
6960MD

Material	Dimensions	FDA Compliant
Polypropylene/Semi-ferrous additive	18.5" x 5"	Yes

Remco Metal Detectable Small Hand Scraper
6961MD

Material	Dimensions	FDA Compliant
Polypropylene/Semi-ferrous additive	3" x 8"	Yes

Remco Metal Detectable Large Hand Scraper
6962MD

Material	Dimensions	FDA Compliant
Polypropylene/Semi-ferrous additive	4.4" x 9.7"	Yes

Remco Metal Detectable Small One-Piece Shovel
6981MD

Material	Dimensions	FDA Compliant
Polypropylene/Semi-ferrous additive	11" x 14" x 38"	Yes

Remco Metal Detectable Large One-Piece Shovel
6982MD

Material	Dimensions	FDA Compliant
Polypropylene/Semi-ferrous additive	14" x 17" x 42"	Yes

Remco Metal Detectable Test Kit
MDTK

Material	Dimensions	FDA Compliant
Polypropylene/Semi-ferrous additive	4mm – 14mm spheres	Yes

The Metal Detectable Test Kit is available to allow testing for detectability with specific equipment. Many variables contribute to detectability. Please call Remco for guidance in testing with your system.

Tubs

Remco tubs and undercarriages are ideally designed for many bulk material handling jobs requiring a container made of FDA-compliant materials. Made from high-density polyethylene, they can be used for transporting, freezing and storing.

Features

- Meets all USDA specifications
- Drain Plug available
- Caster wheels impervious to meat fat
- Caster bearings equipped with grease fittings
- Replacement parts available

Applications

- Meat, seafood, poultry
- Commercial Fishing
- Candy
- Bakeries
- Dairy farms (grain/silage)
- Storage

Remco Angled Dump Tub 6901

White

Material	Dimensions	FDA Compliant
Polyethylene	30.5" x 54.7" x 20.6"	Yes

Remco Lid for Dump Tub 6902

White

Material	Dimensions	FDA Compliant
Polyethylene	31" x 55.5" x 2"	Yes

Remco Galvanized Dumping Undercarriage 6903

Galvanized Steel

Material	Dimensions	FDA Compliant
Galvanized Steel	43.5" x 27.25" x 18.5"	No

Remco Galvanized Low Undercarriage 6904

Galvanized Steel

Material	Dimensions	FDA Compliant
Galvanized Steel	40" x 35" x 10"	No

Remco Angled Dump Tub with Drain 6905

White

Material	Dimensions	FDA Compliant
Polyethylene	30.5" x 54.7" x 20.6"	No

Remco Stainless Dumping Undercarriage 6906

Stainless Steel

Material	Dimensions	FDA Compliant
Stainless Steel	43.5" x 27.25" x 18.5"	No

Remco Transport Storage Tub
6911

White

Material	Dimensions	FDA Compliant
Polyethylene	26" x 46.6" x 16.2"	Yes

Remco Lid for Transport Storage Tub
6912

White

Material	Dimensions	FDA Compliant
Polyethylene	26.5" x 47" x 1.7"	Yes

Remco Galvanized Undercarriage
6913

Galvanized Steel

Material	Dimensions	FDA Compliant
Galvanized Steel	42.5" x 21.5" x 9.5"	No

Remco Transport Storage Tub with Drain
6915

White

Material	Dimensions	FDA Compliant
Polyethylene	26" x 46.6" x 16.2"	No

Remco Aero-Tote Tub
6921

White

Material	Dimensions	FDA Compliant
Polyethylene	36" x 40" x 21.1"	Yes

Remco Aero-Tote Lid
6922

White

Material	Dimensions	FDA Compliant
Polyethylene	36.5" x 41" x 2"	Yes

Remco Aero-Tote Pallet
6923

White

Material	Dimensions	FDA Compliant
Polyethylene	32.7" x 37.2" x 9.5"	Yes

Remco Aero-Tote with Drain
6925

White

Material	Dimensions	FDA Compliant
Polyethylene	36" x 40" x 21.1"	No

CLEANING TOOLS

Maintaining a sanitary environment is an absolute necessity in a food processing facility, but production time is the focus. The ideal sanitation program integrates efficacy and efficiency, and compromise is never an option when it comes to keeping consumers safe from contamination.

For over 115 years, Vikan® has focused on developing the most hygienic and effective cleaning tools in the world. With Vikan's product development emphasis on efficiency, functionality, and ergonomics, sanitation professionals have access to tools that are precisely suited for the most complex cleaning tasks.

With Remco's local support, your facility is afforded the ability to meet and exceed the highest quality control standards in the industry—protecting the safety of your food products and the integrity of your brand.

Brooms and Deck Scrubs

Brooms and deck scrubs from Vikan® are designed for environments where hygiene and efficiency are essential, and come in a variety of bristle options to accommodate cleaning and sanitation efforts in any type of food production facility.

Features

- Hygienic, solid block polypropylene construction
- Low water absorption polyester bristles with stainless steel staples
- Autoclavable at temperatures up to 250° F/121° C
- Requires a European-thread handle

Applications

- Meat, dairy, seafood, and poultry
- Milling and Bakery
- Ready-To-Eat processing
- Winery and Brewery
- Spice manufacturing
- Fruit and vegetable
- Confectionery

Colors

When ordering, add the color digit to the base part number to denote color.

Vikan Narrow Upright Lobby Broom
3104

Block Material/ Bristle Material	Block Dim.	Bristle Type	Bristle Length	FDA Compliant

Tube and Valve Brushes

Even when equipment and machine parts are difficult to reach, everything must be properly cleaned in a food production environment. Tube and valve brushes are designed to facilitate cleaning in the narrowest spaces, and are also suitable for a variety of cleaning tasks such as drains, meat mincers, graters, and the like.

Features

- Flexible tube brush bristles are set in helically wound stainless steel shafts
- Long, flexible brushes reach deep into valves and machine parts, following curves of tubes
- Chemically resistant
- Low water absorption polyester bristles
- Autoclavable at temperatures up to 250° F/121° C

Applications

- Meat, seafood, and poultry
- Dairy
- Winery and Brewery
- Fruit and vegetable
- Bakery
- Chemical and Pharmaceutical

Special Application Brushes

In many food production environments, specialized tools for very specific jobs may be required. Here are a few brushes that help with unique tasks.

Features

- Overhead brush bristles are set with a helically wound stainless steel shaft
- Pastry brush bristles are set with stainless steel staples and have white blocks
- Autoclavable at temperatures up to 250° F/121° C

Applications

- Meat, dairy, seafood, and poultry
- Milling and Bakery
- Ready-To-Eat processing
- Winery and Brewery
- Fruit and vegetable
- Confectionery

Resin Set Brushes

As an alternative to staple set brushes Vikan® produces a select group of Resin Set Brushes. Polyester bristles are affixed to a solid polypropylene block with resin constructed to meet specific needs and special applications.

Features

- Hygienic, solid block polypropylene construction
- Low water absorption polyester bristles with stainless steel staples
- White block with color-coded bristles
- Autoclavable at temperatures up to 250° F/121° C

Applications

- Meat, dairy, seafood, and poultry
- Milling and Bakery
- Ready-To-Eat processing
- Winery and Brewery
- Fruit and vegetable
- Confectionery

Squeegees

Standing water provides an ideal environment for bacteria, and must be addressed in every food production environment. Vikan® offers a range of squeegees that assist in the elimination of water on any surface. Ultra hygiene options are perfect for food contact surfaces, and foam blades powerfully tackle floors and drains. When condensation forms in high places, you can effectively remove it with the unique ceiling squeegee.

Features

- Splash guard and rubber blade are molded in one piece on single blade ultra hygiene squeegee, leaving no seams or cracks for bacteria to hide
- Other models feature easy to replace refill cassettes with special finger grips
- Double splash guards for push or pull applications
- Foam refill cassettes are compatible with Fixed Head and Swivel Neck Squeegees
- Autoclavable at temperatures up to 250° F/121° C
- 6.5" handle included on bench models

Applications

- Meat, seafood, and poultry
- Dairy
- Milling and Bakery
- Ready-To-Eat processing
- Winery and Brewery
- Fruit and vegetable

Pad Holder System

Vikan's pad holder system uses stainless steel locking hooks to secure the pad firmly in place for cleaning difficult angles and areas. No matter where you reach and scrub, the pad will not fall off. Pads are an excellent option for cleaning sticky residues on non-food contact surfaces like floors and walls.

Features

- Pad holders are autoclavable
- Pads intended for single use applications
- Pads made from polyester fibers
- Floor model incorporates a swivel neck to reach underneath equipment and fixtures

Applications

- Meat, seafood, and poultry
- Dairy
- Milling and Bakery
- Ready-To-Eat processing
- Fruit and vegetable
- Winery and Brewery
- Confectionery

Handles & Specialty Handles

With a variety of lengths and materials, you are sure to find the right handle to fit any job. Color-coded handles from Vikan® feature ergonomic polypropylene sleeves to provide a comfortable, sure grip. Specialty handles are available in extended lengths, flow through for overhead cleaning, and floor and drain options. These handles may be paired with any tool requiring a Euro-thread fitting.

Handle Features

- Optimum diameter for reduced muscle fatigue
- Rounded grooves improve grip without compromising hygiene
- Autoclavable at temperatures up to 250° F/121° C

Specialty Handle Features

- Bottle capacity for 6268B and 6269B is 32oz. Replacement bottles available (RP6946)

Waterfed

Ideally suited to all kinds of cleaning projects—including walls, tanks, equipment, and decks—the waterfed system puts the water where you need it. The heavy duty water gun controls water consumption and is designed for rinsing of chemicals after scrubbing processes.

Features

- 2991 and 2973 handles have a barbed fitting (hose clamp required)
- 9324, 2991Q, 2973Q, and 7056Q have a quick disconnect fitting and require the 0703US coupling
- The special quick connect coupling ties the system together for use up to 362 psi with 3/4" service hose
- Quick connect coupling integrates an automatic shut off, allowing user to change tools quickly
- Recommended water temperature not to exceed 122° F/50° C

Colors

When ordering, add the color digit to the base part number to denote color.

INDUSTRIAL TOOLS

Whether it's a remote space adjacent to a food production area or an industrial production facility, areas not requiring ultimate hygiene still demand durable, safe tools. Remco responds with a variety of tough, non-sparking, and chemically resistant products that fit into an economical facility maintenance and safety solution.

Some environments necessitate the use of tools that are compatible with sensitive materials or hazardous substances. When metal is not an option for the job, rugged plastic tools may fit the bill. Lightweight, injection-molded polypropylene tools can get the job done.

Partner with Remco for a comprehensive solution to maintain the condition and integrity of both hygienic and remote areas. Efficiency and cost control is possible with total facility maintenance, and all of the necessary tools should be integrated in your overall cleaning and sanitation plan.

Industrial & Safety Shovels

Injection-molded scoop shovels are ideal for safe material handling in environments that require non-metallic tools due to the existence of sensitive substances. These tools are cost-effective, durable, and lightweight for moving demanding loads.

Features

- Injection molded construction
- Lightweight
- Chemical and corrosion resistant
- Non-sparking
- Working temperature range -22° F/-30° C to 176° F/80° C (except 6880EB)

Applications

- Industrial applications
- Handling bulk materials
- Spill clean-up
- Collection vehicles
- Agriculture and landscaping
- Farm/ranch
- Railroad industry

Remco Small Industrial One-Piece Shovel 6981RG

Regrind Industrial Shovels

Material	Dimensions	FDA Compliant
Polypropylene	11" x 14" x 38"	No

Remco Large Industrial One-Piece Shovel 6982RG

Regrind Industrial Shovels

Material	Dimensions	FDA Compliant
Polypropylene	14" x 17" x 42"	No

Remco Emergency Blade Shovel 6880EB

Orange or Black Safety Shovels

Material	Dimensions	FDA Compliant
ABS	10" x 12" x 24"-36"	No

Remco Handle Adapter For Safety Shovels 6200

White Safety Shovels

Material	Dimensions	FDA Compliant
Polypropylene	5.5"	No

Remco Standard Narrow Safety Shovel 6892SS

Green and Black Safety Shovels

Material	Dimensions	FDA Compliant
Polypropylene	10.5" x 14" x 38.5"	No

Remco Pan-Blade Safety Shovel 6895SS

Green and Black Safety Shovels

Material	Dimensions	FDA Compliant
Polypropylene	10.5" x 14" x 20"	No

Remco Extended Narrow Safety Shovel 6896BKSS

Black Safety Shovels

Material	Dimensions	FDA Compliant
Polypropylene	10.5" x 14" x 43.5"	No

Remco Extended Narrow Safety Shovel 6896SS

Green and Black Safety Shovels

Material	Dimensions	FDA Compliant
Polypropylene	10.5" x 14" x 43.5"	No

**Remco Short Wide Safety Shovel
6897SS**

Green and Black Safety Shovels

Material	Dimensions	FDA Compliant
Polypropylene	14" x 18" x 35"	No

**Remco Short Narrow Safety Shovel
6898SS**

Green and Black Safety Shovels

Material	Dimensions	FDA Compliant
Polypropylene	10.5" x 14" x 33"	No

**Remco Standard Wide Safety Shovel
6900SS**

Green and Black Safety Shovels

Material	Dimensions	FDA Compliant
Polypropylene	14" x 18" x 40.5"	No

**Remco Extended Wide Safety Shovel
6985SS**

Green and Black Safety Shovels

Material	Dimensions	FDA Compliant
Polypropylene	14" x 18" x 46"	No

Hazmat Tools

Chemical clean-up jobs demand tools made from materials that can withstand harsh environments.

Remco's hazmat tools provide an economical solution for when spills happen, and will help you contain hazardous liquids and clean large volumes quickly.

Squeegee Features

- High-density polyethylene block, low-density polyethylene blade
- Lightweight
- Chemical and corrosion resistant
- European-style threads

Handle Features

- Strong honeycomb core for rigid, crush resistant handle
- Polyester gel-coat to protect hands from glass fibers
- European-style threads

Applications

- Industrial applications
- Hazardous liquids
- Spill clean-up

Remco Hazmat Mini-Handle 6012

White

Material	Dimensions	FDA Compliant
Fiberglass	12"	No

Remco Hazmat Short Handle 6024

Material	Dimensions	FDA Compliant
Polypropylene/ Polyethylene	4.2" x 24"	No

Remco Wide Hazmat Squeegee
6630

White

Material	Dimensions	FDA Compliant
Polypropylene/ Polyethylene	4.2" x 30"	No

Quality and efficiency. The right tool for the hygiene-essential job.

When you partner with Remco, you're assured the Remco Products and Vikan® tools you select will meet the food safety and hygienic cleaning requirements of the FDA.

Each product is durable to stand up to the rigors of daily use in a food processing facility:

- Tub and tool surfaces, handles and brush bristles are designed so they can be adequately cleaned and properly maintained.
- Seams on food-contact surfaces are smooth and designed to minimize the accumulation of food particles, dirt, or organic matter, as well as minimize the opportunity for growth of microorganisms.
- All products are made of nontoxic materials and designed to withstand the environment of their intended use and the interaction with food, cleaning compounds and sanitation agents.
- Cleaning tools are designed to facilitate the cleaning and sanitation of food-contact equipment and surfaces.

Remco offers a wide range of brush styles to meet the varying demands of food processors. Choose the brush that best fits the application:

- **Soft** — Ideal for sweeping dry, fine particles like flour and sugar.

- **Medium** — Suitable for wet or dry applications; great for sweeping larger food particles such as peelings.

- **Stiff** — Perfect for scrubbing difficult dirt and for wet use with cleaning agents.

- **Soft/Stiff Combo** — The best of both worlds offering stiff bristles that loosen stubborn dirt and soft bristles that sweep away fine particles.

- **Soft/Split** — Split bristle fibers hold more water and cleaning agent to achieve a maximum washing effect.

Remco offers three styles of squeegees to meet a variety of specific cleaning needs. Choose the blade that best fits the application:

- Vikan Single Blade Ultra Hygiene Squeegee — Zero seams or cracks for bacteria to hide, providing the highest level of hygiene. The hygienic design has smooth, rounded surfaces with elongated ends to protect the rubber blade and guard against splashes.

- Vikan Double Blade Ultra Hygiene Squeegee - Efficient in areas such as large food production facilities, collecting every particle with flexible non-porous rubber blades. These squeegees feature replaceable rubber cassettes designed to move liquids and debris on tiled, uneven surfaces.

- Vikan Double Blade Foam Rubber Squeegee — The neoprene rubber blades make this squeegee the most effective at moving large amounts of liquid on smooth and tiled surfaces. The soft rubber efficiently reaches into all spaces on floors, such as grouting.

Care and maintenance. The proper steps to maintaining food safety.

Products from Remco and Vikan® should be regularly maintained for long life and to comply with food safety standards. In most applications, daily care and cleaning of tools is recommended. To do so, follow these guidelines:

- A thorough wet cleaning of tools is recommended following use to produce reliable sanitary conditions.
- Remove all visible dirt and clean the tools with an agent deemed appropriate for your production environment. Check with your chemical manufacturer for specific recommendations on concentration, temperature, and time when used in conjunction with cleaning tools. Tools are not intended to remain in caustic baths or soaks for extended periods of time. Tools should be rinsed with clean water following cleaning.
- If required or necessary, Remco and Vikan tools are designed to be disinfected after washing. Check with your chemical manufacturer for specific recommendations on concentration, temperature, and time as well as the need for rinsing disinfectant residue. Note: Remco and Vikan products may be cleaned at temperatures up to 250° F/121° C if required.
- In all cases, be sure to hang and dry tools properly before storing or reintroducing into a controlled dry environment. Brush bristles should face outward from the wall.
